Dear Ryan,

I hope your family and you are doing well. I am writing you to request a letter of recommendation from you on my behalf for a job at Branding Brand. I learned a great deal by working with you this past summer at Intalere and value your opinion of my work. Branding Brand is a National Leader in e-commerce and is the #1 provider of mobile apps and sites. The job I am applying for is an entry level Software Engineer/Developer that focuses on Web Development. If you are able to write the letter of recommendation please highlight my strengths and passion I have to efficiently complete a project.

This position fits well because of my coding abilities and creative spirit. It would be even more rewarding to know my work is made with the goal of making lives easier. I appreciate your time in reading my letter and your recommendation would allow the employers at Branding Brand to see my work ethic, coding, and learning capabilities.

If you are willing, this letter would be appreciated as soon as you are able. Please send a digital copy in reply to this email. Feel free to contact me with any questions.

All the best,

Gabriel Larson
